Brand your college as a Red Hat Academy

www.ipsr.edu.in | www.ipsrsolutions.com

India: Trivandrum, Kottayam, Cochin South and North, Calicut City & Cyber Park, Bangalore UK: London

A unique opportunity awaits you. Your college can now be branded along with World's Largest Linux Company – Red Hat. You can now open a Red Hat Academy in your college at zero cost.

Red Hat Academy

Red Hat Academy is a centre of Red Hat in Colleges to train students in hot IT certifications like RHCSA, RHCE and RHCA, which is offered in latest Technologies like Cloud Computing, Infrastructure services, IT security etc. Just by running a 20 seater Red Hat course in your Campus, you can now become a Red Hat Academy.

Benefits to college:

- Branding along with World's Largest Linux Company – Red Hat
- Better Placement for Students
- Seminars / Workshops in campus by Red Hat

Benefits to Students:

- Students will get an opportunity to do Hottest IT Certifications like RHCE in Cloud, which is of High demand in Job Market.
- Gaining International IT Certifications at a much cheaper price, as compared to the market prices.
- Better chances of Placements, that too in MNCs with attractive pay packages (See attachments with details of RHCE student placements in MNCs).
- Placement support from ipsrjobs.com, Kerala's best IT/ITES Job Portal for Freshers.
- Get value to your B.Tech, be a trained fresher. IT Companies give more preference to trained Freshers.
- Students will get short term internship.
- Students can club this certification training with academic project, at a little extra cost.

Significance of doing a Red Hat certification in Cloud:

Red Hat, the No 1 Open Source Company provides a certification in Linux called RHCE (Red Hat Certified Engineer) which is the gateway to Cloud Computing, Security, Storage etc.

As per the data available from different research agencies, the top 5 jobs in 2014 are of Cloud Engineers, Data Scientist, Security Professionals, Mobile Developers and Social Media Managers. According to Linked In, Cloud Computing holds the first position among the 25 Hottest Job Skills in IT and ITES – 2015-16. There are 3600+ Job categories available in the Cloud market which range from architects and developers to data scientists and more with a high salary package.

As per NASSCOM's recent study, the scope for the software market is confined to $398 billion USD among $2500 billion USD of total IT business volume by 2020. The other verticals like Cloud, Security, Storage, Mobility, Big Data etc are the emerging areas in IT. This implies that there is a good demand for those who can fit for the other verticals.

90% of Cloud Servers in the world are now working in Linux. This is because of the reliability, Security and Low cost of Linux, an Open Source OS.

How Red Hat Academy Works:

- Step 1: College needs to identify a minimum of 20 students from CS / IT / ECE, who are interested to do any Red Hat certifications.
- Step 2: Pay for Training and Certification at up to 50% subsidized rates.
- Step 3: College becomes a Red Hat Academy.
- Step 4: Provide training to selected students.
- Step 5: Students get Red Hat certification on passing the exam conducted at the college.
- Step 6: Placement Support from IPSR to get placed in IT companies including MNCs.
- Step 7: College gets the branding of Red Hat Association and higher placement statistics.

Red Hat, Inc.

Red Hat, Inc. is an American multinational software company providing open-source software products to the enterprise community. Founded in 1993, Red Hat has its corporate headquarters in Raleigh, North Carolina, with satellite offices worldwide.

Red Hat has become associated to a large extent with its enterprise operating system Red Hat Enterprise Linux and with the acquisition of open-source enterprise middleware vendor JBoss. Red Hat also offers Red Hat Enterprise Virtualization (RHEV), an enterprise virtualization product. Red Hat provides Cloud Computing, Storage, Operating System Platforms, Middleware, Applications, Management products and support, Training and Consulting Services.

Red Hat creates, maintains, and contributes to many free software projects. It has acquired several proprietary software product codebases through corporate mergers and acquisitions and has released such softwares under open source licenses. As of March 2016, Red Hat is the second largest corporate contributor to Linux after Intel.
